

Requirements:

- 1x Table 1.6m x 0.7m
- 1x Power supply strip with at least 12 plugs
- 1x Mackie Onyx 1640 (16 channel required - 4 band eq with sweepable mids and with at least 5 sends - NO 'DJ' MIXERS ACCEPTED) / Alternatives: Midas, Allen & Heath, Soundcraft (if they meet the requirements)

Artist requires a minimum of 1-hour sound check prior to the performance and 30-minutes setup time. Please keep the main sound system open and able to be adjustable during the sound check and the performance.

The mixer provided by the promoter must be routed directly to the main sound system. Avoid connecting to a DJ mixer.

A sound technician should be available to tune the venues PA / Sound system with sound limitation or restrictions on PA and Monitoring.

****Strictly no recording of the performance is allowed without a prior approval by Slow Life****
